

ECO BOXES & ECO CUPS IN CAMPUS DINING

Covid-19 has changed how the dining program looks this year. We are using this opportunity to make a positive impact. Here is how it works:

1. At each venue on campus, eco boxes and eco cups will be available.
2. Our staff will fill it with your food selections while beverages are available for self-serve. You are free to carry it out.
3. When you are finished with your meal, please place the Eco Box and Eco Cup in the designated yellow receptable in your dorm and/or around campus. No need to hold onto it or carry it around!
4. Dining services will collect the designated receptables, wash/sanitize the contents and stock each dining venue for your next meal.
