At the core of AVI Fresh is the quality of our food, and we do not compromise our standards. Whenever and wherever possible, we use fresh foods to prepare our menus. This is important in many ways – taste being the most obvious difference. Also, in keeping with our commitment to advancing sustainability and supporting local economies, we prefer to purchase foods locally from area farms and food purveyors when seasonally available. In addition we planted our own campus herb garden, and utilize these herbs in our dining outlets and at our catered events when possible.
